

Good Morning,

I noticed with interest the mark up of S. 482, the DASKA bill tomorrow in Committee. I wanted to take the opportunity to point out another egregious example is the activity of Russia and their Wagner Group in Libya. They are currently supporting the strongman Haftar against the US and UN recognized government. It is the same pattern card as Syria, and could give Russia a foothold in a country with the biggest oil reserves in Africa and another warm port on the Mediterranean.

I am attaching a recent NYT piece for your background. It is a good overall summary, but I want to point out that since this article was written, recent reports estimate the numbers of Russian mercenaries have at least doubled or tripled.

I see that there is an amendment being offered. If you could share it that would be very much appreciated. Let me know if you have any questions, and good luck this week getting out of town!
